

WEDDING VENUE AND EVENTS

Hacienda Yaxcopoil "place of green poplars" was founded in the 17th century. It offers a warm welcome with its monumental "arch double Moorish" of the colonial period. Currently converted into a private wedding venue and museum, which seeks to show the spaces and furnishings that were used in times of splendor, it is one of the few haciendas of the Yucatecan region that has managed to preserve its authenticity. The Main House can accommodate from 100 people to 1,000 people, depending on the space of your choice from the stone corridors, the corrals of the Laurel or the Alamo tree and Palms trees garden, as a venue for wedding and events. Meals can be set outside under the stars with fairytale lighting, or indoor corridor for more intimate events.

It has a guest room available for the bride and groom, as well as bathroom facilities for a large number of attendees, a large service kitchen for preparing banquets and parking for vehicles. The Hacienda is located 23 KM. from the exit No.1 of the Periferico of the city Mérida towards Uxmal.
